1. **Call to Order**

- A. **Roll Call:** Chair Hendricks called the meeting to order at 9:03 a.m. Roll call was taken by Secretary Weigel and a quorum was declared with 11 of 12 voting members. Alfreda Daniels joined the meeting at 9:14 a.m. resulting in 12 of 12 voting members present in person or via WebEx.
- B. **Announcements/Introductions – Chair Hendricks**
 - Everyone present in person and remotely are able to hear all discussions.
 - All votes will be taken by roll call if any member is attending remotely.
 - All handouts discussed and WebEx instructions are posted on the [Board’s website](#).
- C. WebEx instructions/procedures were explained.

2. **Approval of Meeting Agenda**

A motion was made by Heimerl, seconded by Turek, to approve the agenda as presented. The roll call vote was unanimous with 11 votes in favor of the motion; the motion carried.

3. **Approval of Previous Meeting Minutes**

A motion was made by Fletcher, seconded by Haiby, to approve the Oct. 19, 2023, regular meeting minutes as presented. The vote was unanimous with 11 votes in favor of the motion; the motion carried.

4. **Regular Business**

- A. **Expense Approval** – Expense reports will be forwarded to Financial Services for payment.
- B. **Enforcement & licensing update** – Sean O’Neil – See **Attachment A**. Electrical Enforcement Actions can be found on the department’s website at:
<http://www.dli.mn.gov/business/electrical-contractors/electrical-enforcement-actions>

Alfreda Daniels joined the meeting at 9:14 a.m., resulting in 12 of 12 members present in person or via WebEx.

C. **Inspection update** – Dean Hunter – see **Attachment B**.

5. **Special Business**

A. 2026 NEC update – Dean Hunter

- The first draft meetings start next week, January 15 – 26, 2024. Public Inputs: 3933 (4006 for 2023)
- Several new articles proposed:
 - Over 1000 vac/1500 vdc
 - Limited Energy reorganization
 - New Article 412 on “Limited Energy Lighting Systems”
 - New Article 420 on “Ceiling Mounted Multi-Function Platforms”

B. Virtual inspection program – John McNamara – see **Attachment C**.

C. Electrical inspection fees updates – Todd Green

- Green said electrical fees were last adjusted 17 years ago, in 2007. The minimum inspection fee was raised from \$20 to \$35 at that time. The Department is now proposing the minimum inspection fee be raised from \$35 to \$55, and creation of a \$30 permit application fee.

6. **Committee Reports**

Construction Codes Advisory Council (CCAC) | Hendricks (rep)/Daniels (alt) – [Presentation Nov. 8, 2023](#)

7. **Complaints and Correspondence**

[Final Interpretation issued Oct. 26, 2023, regarding installation of Building Integrated Photovoltaic Systems](#)

8. **Open Forum**

None

9. **Board Discussion**

10. **Announcements**

Regularly scheduled meetings occur on the second Tuesday of each quarter at 9:00 a.m., in person at DLI with WebEx/Phone options

- April 9, 2024
- July 9, 2024 (Annual meeting – election of officers)

11. Adjournment

A motion was made by Heimerl, seconded by Gudmunson, to adjourn the meeting at 10:09 a.m. The roll call vote was unanimous with 12 votes in favor of the motion; the motion carried.

Respectfully Submitted,

Desiree Weigel

Desiree Weigel
Secretary

Green meeting practices

The State of Minnesota is committed to minimizing environmental impacts by following green meeting practices. DLI is minimizing the environmental impact of its events by following green meeting practices. DLI encourages you to use electronic copies of handouts or to print them on 100% post-consumer processed chlorine-free paper, double-sided.

Unlicensed contractor fined \$24,500

- An unlicensed contractor operating out of Browerville and Long Prairie, Minnesota, was found to have engaged in residential remodeling work without a license. The contractor was ordered to cease and desist from the unlicensed activities and fined \$24,500.
- An Arkansas contractor was found to have engaged in unlicensed electrical work. The contractor was ordered to cease and desist from the unlicensed activity and fined \$7,500.
- An unlicensed Shakopee, Minnesota, contractor was found to have engaged in plumbing and electrical work without having the appropriate contractor licenses. The contractor was ordered to cease and desist from the unlicensed activity and fined \$4,000, which was stayed contingent on future compliance.
- A licensed Golden Valley, Minnesota, residential building contractor was found to have breached contracts with multiple homeowners, demonstrating financial irresponsibility. DLI revoked the contractor's business license and assessed a \$10,000 fine.
- A licensed Woodbury, Minnesota, residential building contractor was found to have breached contracts with multiple homeowners by failing to complete projects after receiving payments. DLI revoked the contractor's license and assessed a \$30,000 fine, which was stayed contingent on full future compliance and full cooperation with homeowners seeking to apply for potential reimbursement to the Contractor Recovery Fund.

Total Active								
Total Active	Date Range Activity			Issued Permits	Aging of Expired Permits			
Current Count	IN Count	OUT Count	Net Change Count	< 12 Months Count	12-18 Months Count	18-36 Month Count	> 36 Months Count	> 12 Months Count
72,307	132,523	139,614	(7,091)	52,402	10,131	8,172	1,004	19,307
Percentage of Current Active Permits								
	183%	193%	-10%	72%	14%	11%	1%	27%

	<u># of Inspections Performed</u>	<u>Inspection Reports</u>	<u>AFBs</u>	<u>Refunds</u>	<u>License Checks</u>	<u>Violation Reports</u>
For Date Range:	191,630	22,943	23,143	7,198	615	0
Year to Date Total:	2,966	361	365	86	13	0

“Total Active”: The total current active permits ("Issued", "Expired" or "Hold" status).

“Date Range Activity”: The permits that were Issued and permits closed out and the net change for the selected date range.

“Issued Permits”: Represents the number of permits that are currently less than 12 months old.

“Expired Permits”: Permits for installations filed with inspection fees of \$250 or less are void 12 months from the original filing date regardless of whether the wiring is completed. Permits filed with inspection fees of \$250 or less are not refundable after 12 months from the original filing date. The authority to install electrical wiring associated with a specific permit is void at the time of a final inspection or expiration, whichever occurs first. The authority to inspect wiring covered by a permit continues until the installation is approved at a final inspection.

“Aging of Expired Permits”: Represents the age of expired permits that are still active. This does not include any permits that have a value over \$250.

“For Date Range:” Represents the numbers in the respective columns during that date range. Violation reports are yet to be counted by this report.

“Year to Date Total:” Represents the numbers for the calendar year beginning January 1st.

“%”: Represents the percentage compared to "Current".

“AFBs”: Additional Fees for Billings (invoices for inspection fee shortages)

Electrical Permit and Inspection History

State Inspection Areas

CALENDAR YEAR	Permit Information			Inspection Information		
	Total Permits Issued	Permits Completed	Permits Closed but Not Finaled	Final "Final" Insp.*	All other Insp.**	Total Inspections
2021	130,192	125,964	7,276	117,163	60,655	177,818
2022	138,028	123,712	6,595	121,875	61,186	183,061
2023	132,492	82,091	2,642	128,176	62,905	191,081
2024	2,410	179	2	2,015	944	2,959

The "**Permit Information**" and the "**Inspection Information**" do not necessarily represent the same permits. The "Permit Information" represents permits issued that Calendar Year. The "Inspection Information" represents the inspections performed that calendar year. The inspections may be for permits that were issued in previous calendar years.

"Total Permits Issued" means the permits Issued in the calendar year indicated. Includes permits in status (milestone) 'Abandon', 'Closed', 'Expired', 'Finaled', 'Issued', or 'Hold'. Does not include any other milestone such as "Out of state Inspected Area", "Refunded", etc.

"Permits Completed" means the "Total Permits Issued" for the calendar year, this is the number of permits placed into 'Closed', 'Expired', 'Abandon', or 'Finaled' status .

"Permits Closed but Not Finaled" means of the "Permits Completed" for the year, this is the number of those permits placed by procedural policy into 'Closed', 'Expired', or 'Abandon' status .

"Final "Final" Insp." represents the number of inspections completed that calendar year that caused the permits to be placed into "Finaled" status or milestone. The permits were not necessarily issued that year.

"All other Insp." represents the number of inspections completed that calendar year that did not result in a ""Finaled" status or milestone. The permits were not necessarily issued that year.

"Total Inspections" represents the total (Finals and Others) number of inspections completed that calendar year. The permits were not necessarily issued that year.

Virtual Electrical Inspections Progression

**DEPARTMENT OF
LABOR AND INDUSTRY**
CONSTRUCTION CODES AND LICENSING

John McNamara | Supervisor – Virtual Electrical Inspections

1

Where it all started

- In September of 2021, the electrical supervisory staff for the department began looking at the feasibility of performing virtual electrical inspections.
- The supervisory staff reached out to several other states and jurisdictions to help gauge the benefits of starting a virtual program and to help avoid any pitfalls that others may have experienced.
- Along with virtual inspections, it became clear that the best path forward was to transition the contract electrical inspector positions to state-employed positions, to make the virtual program more flexible.
- By early spring of 2022, the process had begun and the preliminary steps to assemble the team started.

2

Where do we begin?

June of 2022, John McNamara was hired as the supervisor to lead our efforts.

We chose the northwest and southwest corners of the state for several reasons:

- These areas have been historically difficult areas to fill with contract inspectors.
- Permit volumes were relatively lower than other areas.
- Some of the connectivity concerns would be able to be vetted prior to a larger roll out.
- The statement has always been “If we can do it here, we can do it anywhere!”

3

The launch of state and virtual inspections

- July of 2022, two field inspectors were hired.
- September 2022, Jason Ekholm was hired to be our virtual inspector. The first state virtual inspections were done on Sept. 19, 2022, in state inspection areas.
- November 2022, we added another field inspector in northwest Minnesota, for Polk and Red Lake counties, which further expanded our outreach and virtual inspection program.

4

Getting the word out

- We began working on filming with an outside vendor to complete a couple of short introductory videos.
- DLI's communications team sent out notifications to our stakeholders informing them of the virtual program start up, in designated areas.
- Marketing emails about our ERVI program were sent to electrical contractors who worked within the designated inspection areas over the past two years.

5

5

2022 ERVI was slow to start

- Initially, virtual inspections were very much a manual effort. Contractors would contact our virtual inspector to schedule a Microsoft Teams call to conduct their virtual inspection.
- The first month only about 40 inspections were completed virtually.
- By the end of 2022, we were completing over 100 virtual inspections per month.
- With the increased workload, it became clear that the manual actions that Jason was completing for each inspection was not efficient nor sustainable.
- We began discussing a scheduling component for iMS, to help automate the process.

6

6

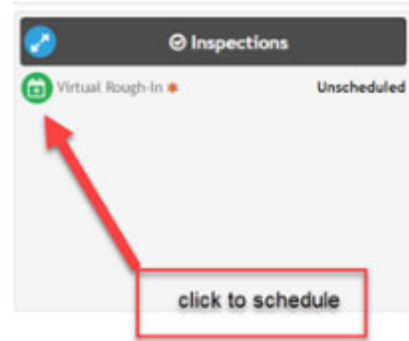

Virtual Inspections were determined and auto generated

Permit type:

- existing dwellings (one, two or multifamily)
- non-dwelling
- utility load management device

Inspection type:

- load management controllers
- equipment inspections (such as air conditioner, furnace or other utilization equipment)
- registered employer work
- rough-in inspections with a three-circuit maximum
- re-inspections
- other, single circuit, final inspections for items such as washer, dryer, electrical vehicle charger, microwave and more. This may also include inspections such as trench, temporary services and concrete-encased electrode bond connections inspections.

7

7

2023 state employee inspection area expanded

- By the spring of 2023, virtual inspections increased to approximately 200 inspections per month.
- In July 2023, the areas of state inspection increased to include northwest district 10 and southwest district 7.
- An additional virtual inspector was added.
- The number of virtual inspections increased to about 300 permits per month.
- Approximately 60% of the virtual inspections are scheduled using the iMS scheduling calendar.

8

The future of the program 2024

More areas will be converted to state employee inspection areas:

- By July we will convert an additional 20 areas over to state-employed inspections.
- Along with hiring additional field staff, there will be a need to increase the number of virtual inspectors.
- We looked for solutions that would allow a more user friendly and automated method of scheduling and conducting virtual inspections.

Proposed 2024 - State Inspection Areas

9

Platform Improvements for 2024

- The department is partnering with VuSpex, who specializes in integrating virtual inspections with existing data management platforms.
- The company offers to streamline our program so that much of the manual work we are doing will be automated.
- VuSpex offers additional features that may allow for virtual inspections where there is low or no cellular connectivity.

10

10

The final step in the transition

- By July of 2025, it is expected that the remaining areas will be converted to state-employed inspection and the virtual program will grow proportionally.
- The inspection transition will be complete, with all state-inspected areas being completed by state employees.
- Virtual inspections will be offered statewide.
