**Subject:** RE: Message to TNC Committee members from Commissioner Nicole Blissenbach

At the end of the day, my recommendation is that drivers receive more pay but not so much that the people I represent get priced out. (Feels like the guaranteed \$24 per hour was a good solution)

I feel that both Uber/Lyft and the drivers should be able to come up with something that is fair and doable. I will weigh in as needed during our next meetings.

I'm also hoping that a fair transparent process for deactivations and appeals is part of the recommendations. It will benefit both driver and passengers.

Regarding insurance, I would recommend that the deductible be lowered for drivers when they need to repair their vehicles. The current deductible (\$2,500?) seems to be very high.

Thank you,

Dan
